

Pterosaur Mobile

Pterosaurs were flying animals that lived alongside dinosaurs. There were many different types. We don't know what sound they made. Maybe they sounded like a seagull, a pigeon or a crow. Perhaps you can make a special noise for yours.

1. Copy the template on to white card
2. Create your own design on the pterosaur or colour in
3. Cut out wings and body
4. Cut along the line on each and slot together
5. Secure with some sticky tape underneath if needed
6. Attach some string to the neck and hang up to display
